JGA and GFG HD Conventional Spray Guns

Built to withstand continuous production line duty the JGA and GFG HD gun bodies are produced in drop forged aluminium and are built for easy maintenance by the operator. Devilbiss air caps, fluid tips and needles are precision engineered to produce finely atomised patterns with first class material distribution throughout the spray pattern.

Example of JGA HD spray gun part numbering:- JGAPHD-C3-10 means...

JGAPHD = JGA Pressure Gun HD / C3 = C3 Air Cap /
10 = 1.0 mm Fluid tip and needle.
